Dear Principals,

On the occasion of the academic year 2018/2019 Term 2 start, and we’d like to draw your attention to some important processes in this Term.

1st. Term 1 Results
- Based on the results of Term 1 performance, it was decided not to administer a Resit Exam (for students who did not achieve the basic required skills) or Makeup Exam (for absent students) in Term 2, to give schools an opportunity to work to raise their students’ performance development plans and programmes.

- Please do NOT distribute Resit Exam notices to students even if extracted from the system.

- The results will descriptively appear to students and guardians in letter rather than percent grades according to the following table that will be programmed into the approved entry system.

- Letter description is associated with students’ result average for each stream.

- Teachers will build students’ individual remedial plans based on their performance levels that will be accessible to school administrations.

- Teachers will build students’ individual remedial plans based on their performance levels that will be accessible to school administrations.
School identify strengths and weaknesses in performance to make use of for building performance development plans on school level.

2nd Electronic Short Tests
- Teachers will have access to SwiftAssess system to build test items.
- The teacher will build short tests within the formative assessment and administer them electronically.
- The teacher can track students' performance through reports available in the system.
- The teacher will enter the student's mark in the approved entry system.
